

## New Year, Same Commitment to Excellence

Your *Better* Metal Building Builder

*In an effort to maintain excellence in quality, Dean Steel Buildings earned AC-472 accreditation from the International Accreditation Service. All of Dean's facilities—Fort Myers, Cedartown and Thomasville—were accredited last December. Dean Steel Buildings is committed to satisfying the needs of our customers at all times. This achievement was made possible by Dean employees' depth of knowledge and true commitment to excellence.*

Marpan Supply Co., Inc. Recycling Plant- Tallahassee, FL

*Marpan Supply Co., Inc.* used a Dean Steel Building to house its recycling plant. The building was constructed by **Pro-Steel Buildings, Inc.** in Tallahassee, Fla. The building is a Low Rise and spans 24,336 square feet. One sidewall was left open and uses a 75 ft. jack beam to accommodate entrance and exit of large vehicles.

Leon Co. Public Works' vehicle storage units - Tallahassee, FL

Dean Steel specializes in vehicle storage units. Seven such units were completed for the **Leon County Public Works Center** in Tallahassee, Fla. The project was constructed by **Pro-Steel Buildings, Inc.** Each of the structures are single slope buildings. The project features Rib-12 Almond walls and special color Burgundy ProSeam roofs. Dean custom designs vehicle storage to fit each customer's needs.

This storage building was modified by **Pro-Steel Buildings, Inc.** for the **City of Tallahassee**. The new structure was added around an existing structure on three of its sides. Because Dean Steel Buildings specializes in custom designs, they can work with you to modify existing structures to better suit your needs.
